CHISTISE COOLIES.-The New York Sun is not over sanguage that Chinese labor is going to be successful in the West India Islands, as some seem to think. The editor has information regarding the habits and temper of these singular people, which, if true, goes far to raise doubts of the value of Chinese labor.— They are represented as indisposed to bear severe or long continued toil, fond of repore, gossiping, relaxation, fitful in their temper, requiring patient and judicious management, and dangerous in the extreme, when roused to resistance, knowing no restraint, and placing no value on human life. The Sun

The chinese repugnance to a negro is described as 'something unconquerable.' 'Hik Queitsz'-ain a Chinzman smooth, and there would be a strong portion of the body; it NEUTRALIZES THE POISONOUS mi work with the blacks in Jamaica and Cuba .-The great difficulty to successful Chinese emigration or Colonization would therefore seem to be the getting of wives for them. What chance the revolution now in progress in China may work on the public sentiment on the subject of female emigration we cannot anticipate, but it is easy to comprenend that until the minds and the feet of the Chinese women are emancipated from their hereditary bondage, the prospect of improving any country by an importation of unmarried and strange-notion Chinamen cannot be very encouraging.

COURTEST -THINK OF THIS .- The power of diffusing happiness is not the exclusive power of the rich. All are capable of it. The poorest man can cheer me by his affection, or distress me by his hatred or contempt. Every man is dependent on another,-A piece of neglect, even from the lowest and most contemptible of men, is fit to ruffle the serenity of my happiness; and a civil attention even from the les of our land, earries a gracious and exhilarating influence along with it.

Let me never hear, then, that the poor have nothing in their power. They have it in their pow-er to give or withhold kind or obliging expressions. They have it in their power to give or withhold the smiles of affection and sincerity of tender attach ment. Let not the humble offerings of poverty be disregarded. The man of sentiment knows how to value them; he prizes them the best deeds of beneficence. They lighten the weary anxieties of this world, and carry him on with a cheerful heart to the end of the journey.

SAD OCCURRENCE.-Last Saturday week, four negroes, whilst bathing in Cumberland river, undertook to wade across, and were washed down into deep water by the current. Two of the negroes sank almost immediately. The other two weresaved by a fad 13 years old, who hearing their cries for assistance seized a rail and swam out to them. He succeeded in bringing two to the shore, one at a time, and then endeavored by diving to bring up the two who had sunk, but did not succeed in his noble efforts. We could not learn the art, be would respectfully propose that they bring forward a name of this heroic youth, but whoever he is, his fenciessness and self possession are descrying of can conveniently find, and pledge themselves to see that the highest commendation. SMART POWDER.-At Springfield, N. H., there is an establishment for manufacturing a species of powder that possesses qualities which Dupont never dreamed of. It has been said that when a keg gets on fire at one end, a man has time to saw takes place. Miners call it "blasting stuff."-Ec-

This is the first time we ever heard that any kind of nowder was manufactured at Springfield, N. H., but we are reminded by the above notice of a kind of powder once kept in that vicinity by a merchant, who dropped a lighted candle into a keg of the article, whilch began to burn, but with great presence of mind he dashed into it a couple of quarts of his best rum, which extinguished the fire, and saved his powder. - Concord Reporter.

THE SMALLEST STEAM ENGINE IN THE WORLD.-Mr. Benjamin J. Warner, the London watch manufacturer, has sent to this country, for exhibition at the World's Fair, the working models for two steam engines. The smallest one, an oscillating cylinder engine, stands upon an English four penny piece, (size of half a dime) with room to spare. The cylinder is but one-sixth of an inch in diameter, the length of stroke three-righths, and diameter of the siston is that of an ordinary needle. The other is a sam engine, composed of more than two hundred pieces. The length of the stand is three and a parter inches, length of beam two and a quarter noises, diameter of cylinder three-eights of an inch, and the length of stroke seven-eighths of an inch. Both of these energes are screwed together with the delicacy and precision of the work of a watch.

THE SHEEP THADS ACROSS THE PLAISS.—F. X. Aubrey, the well known Western trader, left Santa Fe sometime during last December, with a flock of sheep of near 5,000, and a number of mule teams. He travelled down the Rio Grande some distance went around through the State of Sonora-crossed the Colorado at the month of the Gila-and lost but 25 sheep and one mule, and that mule was that by the Indians for food, Notwithstanding the winter through which he had to pass, he landed in California about the 15th olt, with some 3, and fine, and evady for market—after having sold fine, and 1,000 old and lame sheep for \$8,000, and about \$3,000 worth of small and broken down mules which he sold to the Mormons as he passed through their lower settlements.

CORN AND TORACCO CROPS IN MARYLAND,-The Annanolis correspondent of the Baltimore Sun, under date of the 12th instant, says: "After the heavens had been closed up for nearly two months, they were suddenly opened on Sunday night, when the refeesing rain descended on the thirsty ground in torrents, but soon subsided into gentle and ferfilling showers, which have enabled all our tobacco planters (who had plants) to finish setting their crops. It has also secured to them a fine crop of com, which was in great danger of entire destruc-

It is understood that the Hon. James Buchanau, whose appointment as minister plenipotentiary of the United States at the Court of St James has already been aunounced, will soon proceed to London to assume the duties of his mission. We learn, also, that Hon. Messrs. Soule of Louisiana, Gadsden of South Carolina, Borland of Arkansas, Green of Missouri, and Bedinger of Virginia having nearly completed their preparatory arrangements, are about to proceed to their respective destinations, to enter upon the duties of the several mississions confided to their charge.

R. R. R. Miraculous Cures. - People wonder at the quick efficacy of the R. R. R. Remedies in stopping puin, removing its causes, and curing the most obsti complaints. Yet there is no mystery in it -there is nothing miraculous about it. True, until the R. R. R. Remedies were introduced, no remedy or medicine was ever known to stop the most torturing pains in a few seconds, and allay the most violent Cramps of Cholera, Neuralgia, Spasms, &c., in a few minutes. Radway's Ready Relief will stop pain instantly, because it produces a counter action upon the parts where pain is felt. If the patient suffers from Neuralgia, it immediately acts upon the nerves, produces a counter irritation, invigorates the nerves, and imparts vitality to the parts where pain is experienced. The action of the Relief is quick, and the very moment it is applied, it begins to counteract the effects produced by diseased ne-

CHRONIC ENLARGEMENT OF THE TONSILS. CHRONIC ENLARGEMENT OF THE TONSILS.

My daughter, when six months old, was taken with a swelling in the tonsils, which grew larger and larger, till when six years old she had great difficulty in smallowing her food. Every night watch was kept, fearing she would sufficeate. The best doctors attended her but could give no relief. I took her to the most eminent doctors in the fast; they said there was no help for her but to outgrow it. With a said heart I refurned home with her, when she become so much worse that the doctors had to be called in again; they decided that the fonsils must be cut off, as the only means of giving relief. My wrife would not consent to this, and she determined to try your Liniment, which gave relief the very first application, and by a continued use she entirely redetermined to try your Limment, which gave relief the very first application, and by a continued use sie entirely re-covered. She is now ten years old and fleshy and bealthy as could be desired. Your Limitent is also the best in use for sprains, bruises, cuts, borns, headaelic, etc., and it will re-move the most severe pains in a few minutes. If also cared caked unoder in my cow in a few days.

1st. It is of Southern manufacture, being made by the subscribers in the city of Nushville.
2nd. It is of such describle material that it must outlast three or four cast iron Stores.

2d. It is more complete in its cooking apparatus than any cast iron Store.

3d. It is so simple in construction that a child can use it. it.

5th, Its economy of fuel is such that it does not use half as much fuel as a cast iron stove of the same size.

6th. In the economy of time it is important, as it can be heated ready for use in a few minutes.

7th. Its uniform regularity, as every part of the stove is heated at the same time.

8th. Its perfect reliability as we have put up over four hundred of them in this State, and no one has ever failed to give entire satisfaction. SNOW, MACKENZIE & CO.
